11th October 2021.

Dear Parent/Carer

RE: Primary Maths Challenge

As part of our whole school vision to provide challenge and depth for our pupils, this year, Priory has decided to take part in the Primary Maths Challenge. The challenge requires children to complete a test paper containing a number of multiple-choice problem solving questions. The scores are then submitted to the Mathematical Association and compared with other schools nationwide. In previous years, many of our pupils have received Gold, Silver and Bronze level awards with some of our most exceptional Mathematicians moving forward to compete in the Bonus Round.

We are inviting pupils in year 5 and 6, who are interested and enjoy mathematical reasoning and problem solving to take part. More information about the challenge and example papers are available from the following website.

<http://www.primarymathschallenge.org.uk/>

The challenge will take place during the weeks of 8-19th November and children will sit the paper in school.

We would like as many children as possible to be able to take part in the challenge, I am sure you will agree it is a great chance for the children to extend their learning beyond the curriculum. Finally, in order provide our pupils with this opportunity; we are asking for a small voluntary contribution of £2.50 per child to cover the costs of test papers and registration fees. Unfortunately, should we not receive sufficient funds, we may need to cancel the event.

If you would like your child to enter, please log onto parent pay to make a payment of £2.50 by Wednesday 20th October.

Yours faithfully

L O'Mahony
Challenge Lead
