

# Peek at the Week

## Year 6 – 8th October 2021

### Important Dates / Reminders

Maths homework has been set and is due in school each Monday.

Children should also complete one piece of homework each week from the Harry Potter Homework menu. **This homework is due in next week!**

Spelling test each Monday.

Don't forget to wear the correct PE kit to school each Monday.

The Reception teachers are so grateful for the support the Year 6 Lunch Buddies have been providing to the younger children.

### Our Learning

**This week**, have been learning more about the properties of light in our Science lessons. We also learnt how to stay safe by taking part in a Road Safety Workshop provided by Slough Council.

In maths, the children practised their skills at dividing by one digit and learnt the divisibility rules.

In English, the children continued their study of Harry Potter and the Philosopher's Stone and took part in an immersive sensory lesson to prepare for their next writing task.

**Next week**, we will be focussing on building on their knowledge of electricity and electrical circuits in our Science lessons.

In maths next week, the children are going to be using their knowledge of the divisibility rules to help them divide numbers by two digits.

In English, the children will be creating two narratives inspired by the final chapters of Harry Potter and the Philosopher's Stone.

If you have the chance to take a woodland walk this weekend this would help the children with their descriptive writing.

Star of the week

Rowling: Iris

Zephaniah: Zaki

Shakespeare: Alissa

Word of the Week: **condescending**
