

Peek at the Week

21.06.24

The sun has got his hat on this week in Reception! We have had a lovely week, continuing to explore our topic "Under the Sea". The water tray and sand pit were very popular this week, and there was a tricky word sea creature scavenger hunt which had pupils hunting both inside and out! Activities like the one pictured below are a brilliant way of extending the children's mathematical understanding alongside developing fine motor skills!

Important dates:

Monday 24th 2pm–EYFS Parent Forum

Tuesday 25th 8.30-9.30 Learning Together Morning

Wednesday 26th 8.30-9.30 Learning Together Morning

Wednesday 17th July–Sports Day

Wednesday 24th July–Reception End of Year Celebration

As the weather gets warmer, please ensure your child comes into school with a water bottle and a sun hat. Remember to apply sun cream before coming to school.

Our Learning

Communication & Language Development

We have continued Summer 1 of [Little Wandle](#) this week. We been practicing chunking and blending longer words, such as "lunchbox" and "chimpanzee". Please continue to practice Tricky Words with your children at home! **Phonic information for Parents [here](#)**

Maths

Maths has been lots of fun this week – learning all about positional language! We have been using vocabulary such as: above, under, in between and in front. The children created their own small world scenes using their choice of resources, and then described what they could see.

Personal, Social and Emotional Development

We had a lovely outdoor circle time this week, which made a nice change! We started by taking turns to look inside a very special box– ask your child to tell you what they saw! We then discussed how we can stay healthy in this hot, sunny weather. We finished by pairing up and creating a wonderful portrait of our partner!

Reception song of the week:

[Days of the Week](#)

Well done to the Reception Children of the Week!
